Simple Fast Effective

The CraftyHomeWorkouts Program will push your body to its limits. It will hit you from all directions developing your functionality, cardiovascular and strength.

If you feel out of shape because you just came home from a walk or just carrying groceries, you need to look again through your life with different scope.

You need to start making better choices for yourself because your body is like an engine that is functional but if you neglect it, your engine will get rusty and sooner or later will just fail on you. If you don't take care of your body, those privileges you worked hard for will be taken from you. Your mind is powerful but your body is a component of your mind. They both go hand in hand, you need to get your act together and when performing these exercises. These exercises will help you in your overall wellness. You will look back on this and thank yourself later on.

Instructions

- * Before starting your workout look at the Workout Plan and double check if the exercises involve (Dumbbells, KettleBells, Loop Bands, or PullUp Bars or Resistance Bands.) You can add or subtract the items if the exercises are too difficult.
- * You can perform the Workout Plan by Sets (finishing that one exercise all at once with required set provided then moving forward to the next exercise) or go by Rounds (going to the next exercise then repeating all over again by how many rounds are required) whichever works best for you.)
- * Finish the (A) Exercise first then presume to the Core Exercises.
- * 30sec Rest Period when appropriate.
- * Focus on the Workout! Nothing More, Nothing Less.
